Badger Technologies Inks Selling Agreement with BKT Associates

Farmington, NY, December 12, 2006 -- Badger Technologies, Inc., Farmington-based contract manufacturer of printed-circuit boards and interconnect/cabling systems, has recruited manufacturers' representative BKT Associates of Rochester to represent the company in selected markets throughout the northeastern United States.

"We are delighted to welcome BKT Associates to the Badger family," said Jason Saner, co-owner and vice president of marketing and sales for Badger Technologies. "Their 27 years of manufacturing experience and their solid record of success are just the qualities we were looking for to help maintain and expand our rapid growth throughout the Northeast."

"Badger Technologies is in a wonderful position to excel in our markets," said Sam Cromwell, BKT Associates partner. "Not only do they do outstanding work, but they manage their cash very well and are backed by one of the area's leading investment firms, Delta Point Capital Management."

Badger Technologies, Inc., with major facilities in Farmington and Penn Yan, New York, specializes in electrical contract marketing for the military; medical; test and instrumentation; and transportation industries.
