

ISO 9001:2000 Certification Announcement

Badger Technologies, Inc., a Contract Electronics Manufacturer, announces a milestone achievement in becoming certified to the ISO 9001:2000 Quality Management Systems standards and guidelines. Badger has achieved the ISO 9001:2000 accreditation from Det Norske Veritas (DNV). ISO 9001 is accepted worldwide as the inclusive international standard that defines quality.

Badger underwent a stringent evaluation process that included quality management system development, documentation review, pre-audit, initial assessment, and clearance of non-conformances. All of which worked to identify corrective actions that eliminated non-conformance to the quality management standard. The process culminated in a comprehensive registration audit by DNV. After correction and closure of all non-conformances, Badger received its ISO 9001:2000 certificate of registration on September 7, 2007.

The certification of compliance with ISO 9001:2000 recognizes that the policies, practices and procedures of our corporation ensure consistent quality in the services and assemblies we provide our customers. With this certification, our customers can be confident that Badger is dedicated to maintaining the highest effectiveness and responsiveness in achieving our goal of total customer satisfaction.

Badger has been assessed and registered as conforming to the requirements of the following standard:

ISO 9001:2000

The Quality Management System is applicable to:

CONTRACT MANUFACTURING OF PRINTED CIRCUIT BOARDS, WIRE HARNESS/CABLE ASSEMBLIES AND FULLY INTEGRATED SOLUTIONS.
(EXCLUDING CLAUSE 7.3: DESIGN AND DEVELOPMENT)

ISO registration is but another example of Badger's commitment to provide exceptional products and services to our customers.
